

# Working from Home solutions by ZoneAlarm

In today's new "working from home" reality, closing the security gap on every device is more crucial than ever before.

ZoneAlarm offers advanced cyber security solutions for employees and their family members:

- ✓ Enterprise-grade technology with emphasis on preventing the most advanced attacks, such as ransomware and phishing
- ✓ A multi-platform solution protecting PC and mobile devices (iOS and Android)
- ✓ Very affordable pricing
- ✓ Complete employee privacy

## Business model 1: Cyber peace of mind for employees

- Advanced cyber protections for up to 10 devices
- Licenses available via a customized, co-branded [landing page](#) with your logo
- Simplicity first: download, install, and activate in 1 click with initial 90-day free licenses
- ZoneAlarm 1st tier support available 24/7
- Implemented in as fast as 2-3 days
- Only verified employees with corporate email addresses can download the software
- Special pricing for 1 & 2 year subscription options

## Business model 2: ZoneAlarm special discount for employee personal use

- Employees can buy ZoneAlarm products through a dedicated [landing page](#)
- The site can be implemented in as fast as 4-5 days
- Extends the same corporate Check Point discount to employees' use of ZoneAlarm solutions
- Renewal price stays unchanged
- ZoneAlarm 1st tier support available 24/7

## Why ZoneAlarm?

ZoneAlarm offers market-leading, enterprise-grade security technologies for consumers. Built on the technologies used in Check Point's Sandblast Agent and Sandblast Mobile solutions.

ZoneAlarm's award-winning products are installed in millions of consumer and small business PCs and mobile devices worldwide, protecting them from the most advanced known and unknown cyber threats.
